COMPACT PHOENIX SYSTEM

QTEC Fire Services with another innovative design.

Our **VDAS PHOENIX** Series, is a low-pressure Compact Foam Spray System, with a compliant fire agent for the use with operators giving them added safety and security in the event of a fire.

It is a personal protection system for foundry workers.

The **VDAS PHOENIX COMPACT** Systems are compliant to AS5062 with the full certification under AFP-3406.

The system is available in LOP or ROP design, and has a multi axis nozzles available, with full stainless steel ring mains.
