

**FIRE SUPPRESSION SYSTEMS  
QUALITY PRODUCTS & AUSTRALIAN MADE**

# QUALITY THROUGH INNOVATION

## PRODUCT SPEC SHEET

# PRESSURE SWITCH

QTEC Fire Services uses stainless steel pressure switches. They are used to monitor the system and bottle pressures, each switch monitors a different pressure for use on different components of our VDAS systems.

All of Qtec Fire Services pressure switches are compliant to AS5062.

Bottle / Cylinder:

**QTB517** SS SS Pressure Switch, n/o n/c, duetz 1100 kPa

Fire Alarm:

**QTB518** SS SS Pressure Switch, n/o n/c, duetz 200 kPa

LPRM Cylinder:

**QTB520** SS SS Pressure Switch, 800KPA

Electronic Alarm:

**QTB558** SS SS Pressure Switch, 100KPA, C/W 4.7Kohm Resistor
